

XBAL

iShares Core Balanced ETF Portfolio

As of 12/31/2021

iShares
by BLACKROCK®

The Fund seeks to provide long-term capital growth and income by investing primarily in one or more exchange-traded funds managed by BlackRock Canada or an affiliate that provide exposure to equity and/or fixed income securities.

WHY XBAL?

- 1 A simple and efficient way to gain exposure to a portfolio of ETFs that is broadly diversified by asset class and across regions, in one convenient package
- 2 Continuously monitored and automatically rebalanced, as needed, in order to maintain asset class target weights
- 3 A low cost fee structure that allows investors to keep more of what they earn. Management fee of 0.18% includes all underlying ETF management fees.

GROWTH OF 10,000 CAD SINCE INCEPTION

Beginning Value = \$10,000.00; Date = 6/21/2007
Ending Value = \$22,397.24; Date = 12/31/2021

These results in the above Growth of 10,000 chart are hypothetical and are intended for illustrative purposes only. See page 2 for important disclosures and more information about hypothetical results.

ANNUAL PERFORMANCE (% CAD)

	Cumulative				Annualized				
	1 Month	3 Month	6 Month	YTD	1 Year	3 Year	5 Year	10 Year	Since Inception
Fund	2.00	4.19	4.68	11.06	11.06	12.26	7.79	6.93	5.71

12 MONTH PERFORMANCE PERIODS (% CAD)

	2021	2020	2019	2018	2017
Fund	11.06	10.58	15.19	-2.51	5.50

All amounts given in Canadian dollars.

Effective December 11, 2018 (the "effective date"), the fundamental investment objective, management fee and fee structure of the ETF changed. The performance data shown above for periods prior to the effective date does not reflect these changes to the ETF and such performance data would have been different if these changes to the ETF had been in place during the applicable performance measurement periods set out.

KEY FACTS

iShares® ETFs are managed by BlackRock Asset Management Canada Limited ("BlackRock Canada"). Commissions, trailing commissions, management fees and expenses all may be associated with investing in iShares Funds. Please read the relevant prospectus before investing. The indicated rates of return are the historical annual compounded total returns including changes in unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution or operational charges or income taxes payable by any securityholder that would have reduced returns. The funds are not guaranteed, their values change frequently and past performance may not be repeated. Tax, investment and all other decisions should be made, as appropriate, only with guidance from a qualified professional.

The Hypothetical Growth of \$10,000 chart reflects a hypothetical \$10,000 investment and assumes reinvestment of dividends and capital gains. Fund expenses, including management fees and other expenses, were deducted.

Unlike an actual performance record, hypothetical results do not represent actual performance and are generally prepared with the benefit of hindsight. In addition, hypothetical trading does not involve financial risk. There are frequently differences, including material differences, between hypothetical performance results and the actual results subsequently achieved by any particular fund. Since trades have not actually been executed, hypothetical results cannot account for the impact of certain market risks such as lack of liquidity. There are numerous other factors related to the markets in general or the implementation of any specific investment strategy, which cannot be fully accounted for in the preparation of hypothetical results and all of which can adversely affect actual results.

SUSTAINABILITY CHARACTERISTICS

Sustainability Characteristics can help investors integrate non-financial, sustainability considerations into their investment process. These metrics enable investors to evaluate funds based on their environmental, social, and governance (ESG) risks and opportunities. This analysis can provide insight into the effective management and long-term financial prospects of a fund.

The metrics below have been provided for transparency and informational purposes only. The existence of an ESG rating is not indicative of how or whether ESG factors will be integrated into a fund. The metrics are based on MSCI ESG Fund Ratings and, unless otherwise stated in fund documentation and included within a fund's investment objective, do not change a fund's investment objective or constrain the fund's investable universe, and there is no indication that an ESG or Impact focused investment strategy or exclusionary screens will be adopted by a fund. For more information regarding a fund's investment strategy, please see the fund's prospectus.

MSCI ESG Fund Rating (AAA-CCC)	AA	MSCI ESG Quality Score (0-10)	7.69
MSCI ESG Quality Score - Peer Percentile	56.96 %	MSCI ESG % Coverage	97.11 %
Fund Lipper Global Classification	Mixed Asset CAD Balanced	MSCI Weighted Average Carbon Intensity (Tons CO2E/\$M SALES)	190.49
Funds in Peer Group	388		

All data is from MSCI ESG Fund Ratings as of **07-Dec-2021**, based on holdings as of **31-Oct-2021**. As such, the fund's sustainable characteristics may differ from MSCI ESG Fund Ratings from time to time.

To be included in MSCI ESG Fund Ratings, 65% of the fund's gross weight must come from securities covered by MSCI ESG Research (certain cash positions and other asset types deemed not relevant for ESG analysis by MSCI are removed prior to calculating a fund's gross weight; the absolute values of short positions are included but treated as uncovered), the fund's holdings date must be less than one year old, and the fund must have at least ten securities. For newly launched funds, sustainability characteristics are typically available 6 months after launch.

ESG GLOSSARY:

MSCI ESG Fund Rating (AAA-CCC): The MSCI ESG Rating is calculated as a direct mapping of ESG Quality Scores to letter rating categories (e.g. AAA = 8.6-10). The ESG Ratings range from leader (AAA, AA), average (A, BBB, BB) to laggard (B, CCC).

MSCI ESG Quality Score - Peer Percentile: The fund's ESG Percentile compared to its Lipper peer group.

Fund Lipper Global Classification: The fund peer group as defined by the Lipper Global Classification.

Funds in Peer Group: The number of funds from the relevant Lipper Global Classification peer group that are also in ESG coverage.

MSCI ESG Quality Score (0-10): The MSCI ESG Quality Score (0 - 10) for funds is calculated using the weighted average of the ESG scores of fund holdings. The Score also considers ESG Rating trend of holdings and the fund exposure to holdings in the laggard category. MSCI rates underlying holdings according to their exposure to industry specific ESG risks and their ability to manage those risks relative to peers.

MSCI ESG % Coverage: Percentage of a fund's holdings that have MSCI ESG ratings data.

MSCI Weighted Average Carbon Intensity (Tons CO2E/\$M SALES): Measures a fund's exposure to carbon intensive companies. This figure represents the estimated greenhouse gas emissions per \$1 million in sales across the fund's holdings. This allows for comparisons between funds of different sizes.

Certain information contained herein (the "Information") has been provided by MSCI ESG Research LLC, a RIA under the Investment Advisers Act of 1940, and may include data from its affiliates (including MSCI Inc. and its subsidiaries ("MSCI")), or third party suppliers (each an "Information Provider"), and it may not be reproduced or disseminated in whole or in part without prior written permission.
